Ask Devaluing Of Currencies

Bankers Say It Will Help Europe Crisis

Washington, Sept. 13—(AP)—Top leaders of the world bank and monetary fund joined today in urging European countries to devalue their currencies as a means of hastening their economic comebacks.

This advice was given to nearly 350 foreign delegates, including a score of finance ministers, who gathered at a joint session of the boards of governors of the two international financial agencies. Both agencies are holding annual meetings here.

Eugene Black, American president of the 48-nation world bank, bluntly told the session: "I do not underestimate either the complexities or the far-reaching consequences of such action, but I fail to see how it can be avoided."

Rates Out of Line
Camille Gutt, the Belgian financier who heads the world monetary fund, said the present money rates are so out of line that they are seriously handicapping the sale of European products in the world dollar markets.

The British pound, for example is now valued at about \$4.03. The argument in favor of cutting this figure is that a dollar would buy more British goods and hence would make it easier for the British to compete in dollar markets.

These other major developments marked the initial two-hour session of the financial conference in the main ballroom of the Shoreham hotel.

Hike Gold Price
South Africa's delegate proposed that the price of gold be increased by permitting each nation to market one-half of its new production on a "free market."

The U.S. treasury now pays \$35 an ounce for gold, a price which is recognized by the world fund. Gold-producing South Africa claims this is too low.

Treasury Secretary Snyder, the chief American representative, flatly opposed the South African move, saying:

"I have said on many recent occasions and I must say again that I do not perceive any considerations of monetary policy which would justify me in proposing to my government a change in the dollar price of gold."

Black indirectly criticized the British labor government for maintaining its elaborate health and social welfare program at a time when it is striving to meet a growing dollar deficit.

Black also surprised delegates by strongly advocating changes in the American sponsored Marshall plan for European recovery with the aim of making dollar aid more effective.

**Adenauer Stands
Out As Top Man
In Reich Politics**

Bonn, Germany, Sept. 13—(AP)—Dr. Konrad Adenauer, 73-year-old administrator who opposes both Nazism and Communism, stood out today as the dominant political personality of the new western Germany.

His appointment as chancellor of the west federal Republic was expected tomorrow from Theodor Heuss, political scientist and author who was chosen by the electoral assembly yesterday as west Germany's first president.

As Chancellor (prime minister) Adenauer will be charged with the real task of guiding the infant Republic along a course which he has indicated would be aimed at uniting east and west Germany and linking Germany with France and the other nations of the council of Europe.

The Bundestag, or lower House of Parliament, was scheduled to meet tomorrow evening to confirm the nomination of a chancellor. However, the session was postponed tonight. It probably will be held Thursday.

**Gets Three Years
For Kidnapping**

Danville, Ill., Sept. 13—(AP)—William Sidney Hughes, 23, of Portageville, Mo., pleaded guilty today to a kidnapping indictment and was sentenced to three years imprisonment.

Hughes entered his plea when he was arraigned before District Judge Walter C. Lindsey a few hours after he was indicted by a federal grand jury.

He was one of several persons indicted yesterday and today.

Morelli, Slated To Die Sept. 23, Wins 30-Day Delay

Chicago, Sept. 13—(AP)—James Morelli, 22, murderer condemned to die Sept. 23, was granted a 30-day delay of his electrocution today by Judge John A. Sbarbaro of superior court.

The court denied, however, a motion for a new trial. Judge Sbarbaro ruled the state's new post-conviction law did not apply to Morelli.

He is the first prisoner to take advantage of the new statute which provides that a prisoner who believes his constitutional rights have been violated may ask the trial court for a new trial.

The delay of execution was allowed to permit Morelli's attorneys to appeal Judge Sbarbaro's opinion to the Illinois supreme court. Unless there are further delays he will be electrocuted Oct. 24. The 23rd of October is a Sunday.

**Boy, 14, Changes
Story; Now Sorry
He Killed Mother**

Huntington, W. Va., Sept. 13—(AP)—James Pearl Edmiston, 14-year-old Sharnold, Ky., school boy charged with the shotgun slaying of his mother, said today that he was sorry.

"I don't know why I did it. I hadn't planned to kill her. I just don't know what I was thinking about."

A warrant was issued in Pikeville, Ky., charging the boy with murder. Sheriff's deputies came here late today to return him to Pikeville.

Pearlie, who will be 15 on Dec. 31, but seems much older, changed the story he told West Virginia state police yesterday after stopping at a filling station near here to surrender.

At that time, he was quoted by Sgt. Beryl Langford as saying his mother, 34-year-old Mrs. Opal Edmiston, had beaten him with a poker.

Today he told newsmen in his cell that both his father, Pearl Edmiston, and mother had been good to him, and that his mother hadn't whipped him "for a long time."

**Reports Retail
Furniture Business
Is Booming Again**

Chicago, Sept. 13—(AP)—The retail furniture business has started to boom again, Gen. Lawrence H. Whitting, president of the American Furniture Mart, said today.

Whitting, who has surveyed the home goods industry in several sections of the country, gave this view of conditions:

"Many merchants who didn't buy sufficiently at the summer market, are having difficulty on refills. Some furniture factories are booked up through October and November."

One factory announced an eight per cent price increase last week. Another plant that was working only three or four days a week earlier this year has stopped taking orders on the bulk of its line. Another reported it was sold up until the winter market in January.

Territories where this condition exists, Whitting said, include New England, North Carolina, Virginia and Arkansas—all leading producers of bedroom and dining room furniture.

KILLED IN ACCIDENT
Robinson, Ill., Sept. 13—(AP)—A Robinson motorcyclist died today of accident injuries. He was William McIntosh, 39. He was thrown as his motorcycle skidded on loose gravel near here Saturday. He never regained consciousness from a skull fracture.

**Lewis Demands Operators
Pay Into Welfare Fund**

Washington, Sept. 13—(AP)—John L. Lewis, in an angry "please remit" letter, virtually threatened today to call a strike against southern coal operators who have been withholding payments from the United Mine Workers welfare fund.

Lewis did not mention the word "strike." But he said a continuation of the "default" may cause "reaction" on the part of the coal operators.

To practically everybody on the sidelines here that meant a strike threat.

The National Coal association advised its members that the Lewis letter's language is "a direct threat," and said in the letter:

"No mention is made of the fact that there is no contract and no agreement to pay."

Lewis said his \$100,000,000 a year income as a cost of operation.

Senate Will Begin Voting On Trade Bill On Thursday

Washington, Sept. 13—(AP)—The Senate agreed today to begin voting Thursday (3 p.m. Central Standard Time) on amendments to the reciprocal trade agreements bill.

The agreement was reached at the close of a day in which the Senate heard a bitter attack on the administration's trade policies by Senator Malone (R-Nev.).

Keystone Of Policies
The reciprocal trade measure is frequently described as the keystone of those policies. Under it, the president, without reference to congress, can negotiate mutual tariff-cutting agreements with other countries, lowering U. S. import duties as much as 50 per cent below the 1945 rates.

Malone complained today that a reduction in the tungsten tariff had closed all except one U. S. tungsten mine, and that this one is expected to close soon. He said officials told him the tariff wasn't cut much—only from 50 cents a pound to 38 cents.

"If you take a blow torch and cut two feet off the Potomac river bridge," Malone observed, "you wouldn't have any bridge any more."

Abandon Night Session
The Senate agreement to start voting Thursday caused administration leaders to abandon plans for a night session tonight.

They are marshalling their forces to try to defeat a "peril point" amendment which republican senators want to attach to the bill. If, in negotiating trade agreements with another country, the president arranged to cut below a level which the tariff commission held would imperil American producers, he would have to explain to congress.

James G. Patton, president of the National Farmers Union, charged that the republicans are trying to put President Truman "on the spot" by that amendment.

**Negro Jury Gives
Negro Three Years
For Killing Man**

Frankfort, Ky., Sept. 13—(AP)—George Adams, first Negro to be tried here by 12 of his own race, got a three-year sentence today for killing a white man.

The jury, with Ben Spencer, a cobbler, as its foreman, deliberated about four hours before it agreed on conviction of voluntary man-slaughter and a three-year term.

Adams, about 50, claimed self-defense in the fatal shooting at dusk last April 4 of Ransom Maddox, a World War II veteran, and the wounding of his brother, Mitchell Maddox.

The brothers had gone to a barn on the farm where Adams worked to arrange for him to train a horse. A quarrel followed while they were drinking.

Commonwealth Attorney James P. Hanrahan said the charge against Adams of shooting and wounding Mitchell Maddox will go over until the January term of court.

**Urges Minority
Groups Be Allowed
To Express Ideas**

Chicago, Sept. 13—(AP)—The Rev. Emerald L. Olson of Whiting, Ind., today urged "freest interplay" of ideas advocated by minority groups.

Mr. Olson returned from New York City where he attended the Communist conspiracy trial as an independent observer. He was one of five Chicago area Protestant clergymen to make the trip.

In a statement to newsmen, he said:

"I am more than ever convinced that ideas advocated by the Ku Klux Klan, the communists, the silver shirts or any other group should have the freest interplay. Only thus can democratic individual rights be preserved."

"The ideas that deserve to survive will do so since the wisdom of the people will select them according to their merit."

"We already possess the necessary safeguards in our governmental structure to deal with action which violates any of our rights."

**Man, 67, Sued For
\$100,000 For Not
Marrying Woman**

Chicago, Sept. 13—(AP)—A 67-year-old widower was named today in a \$100,000 heart balm suit after six years of alleged courtship came to naught.

The action was filed in superior court by Mrs. Helen Rawn, 56, a divorcee and bakery clerk. She named David Burr Richards, a retired railroad man.

The suit contained a malice count which, if included in a verdict for the woman, would permit jailing of the defendant if he failed to pay damages.

Mrs. Rawn, mother of a grown son, charged that Richards had proposed to her in 1943, been "profoundly intimate" with her, then called off wedding plans Sept. 4 of this year.

The suit said that the railroad worker invited Mrs. Rawn to his cottage at Momence, Ill., for two summers and spent most of his time in her apartment.

**GREEKS TO TELL U. N.
THEY WILL INVADE
ALBANIA TO GET REDS**

Athens, Sept. 13—(AP)—Greece plans to tell the United Nations she will invade Albania "in self-defense" if Communist led Guerrillas launch new aggressions from Albanian soil, a high Greek source said today.

The source, a ranking member of the Greek delegation to the company U. N. general assembly, said this bold action has been decided upon to end once and for all the Guerrilla threat along the Greek-Albanian border.

U.S., Britain Plan Policies

12 Tavern Keepers Ordered To Defend Liquor Licenses

Chicago, Sept. 13—(AP)—Twelve tavern keepers, all but three of them from Chicago, today were ordered to appear before the Illinois liquor control commission to defend their applications for retail liquor licenses.

George M. Wells, secretary of the commission, said all occupy premises against which there were gambling or slot machine convictions last year. They are asked to show why licenses should not be denied.

The hearings—on Friday—will be the first in a series to be held as the result of an opinion by Ivan A. Elliott, Illinois attorney general. Elliott required the commission to deny applications of retailers who have been convicted of permitting gambling in their places in the license period preceding application.

**Stevenson Denies
Clemency To 23
Imprisoned Killers**

Springfield, Ill., Sept. 13—(AP)—Governor Stevenson today denied executive clemency petitions of 23 persons serving penitentiary sentences for murder.

Four of the petitions were filed by prisoners convicted from downstate counties: Charles J. Keplar, Macon county, sentenced to 14 years; George Gronewald, Ogle county, and Ernest Burnett, St. Clair county, each serving life; and Morris Hicks, St. Clair county, sentenced to 99 years.

Clemency was denied to these persons convicted of murder in Cook county: Anthony Bradley, William Dancy, Johnny Gay, James C. Jones, Emmett Marshall, Louis Mitchell, Walter Price, Paul Ross, Mack Turner, Soyle Villegas, General George Watkins, Henry Wofford, Ira Johnson Bey, Juan Supero, Frank Talach and Abigail Traxler.

**Indict Four Men
For Shootings Of
2 Express Guards**

Chicago, Sept. 13—(AP)—The grand jury reportedly voted true bills today accusing four men of murdering two armored express guards in a bank holdup last May 25.

Those reported named are Joseph Jakowski, 32; Richard Tamborski, 28; David Edgerly, 32; and James Hoyland, 28. All but Tamborski are ex-convicts.

They are accused of killing two Brinks and Company guards, Bruno Kozol and Joseph Den, during a holdup at the South Chicago Savings Bank, 2559 East 92nd street.

The holdup netted \$920 in cash and \$377,000 in valueless cancelled checks. The two guards were mowed down with a machine gun.

State Attorney John S. Boyle has said the state will seek the death penalty for Tamborski and Jakowski. Edgerly and Hoyland are expected to appear as state's witnesses.

**Man, 67, Sued For

**Would Join
U.S., Britain
On Policy**

Washington, Sept. 13—(AP)—Secretary of State Acheson and Foreign Secretary Bevin reported today that the United States and Britain are close together on plans for dealing with pressing problems in the Orient and Middle East.

The top diplomatic officials disclosed this in a guardedly worded joint statement after a conference. Their meeting marked the start of an attempt to bring the two governments together on a common policy toward Communist China and on other urgent political issues.

Last Three Hours
The initial session lasted nearly three hours.

Acheson and Bevin also took up the current effort led by the United Nations to work out a lasting Palestine settlement and to develop the economy of middle eastern countries.

The meeting was the first of a series of closed-door conferences on political issues, with particular emphasis on the situation resulting from the Communist sweep in China.

Yugo Challenges Russ To Take Fight To United Nations

Mother Of Three Killed As Radio Falls Into Bathtub

Belgrade, Yugoslavia, Sept. 13—(AP)—A Yugoslav spokesman, saying Moscow-led communists are lying about Yugoslavia, challenged Russia today to place the Russian-Yugoslav quarrel before the United Nations.

"Yugoslavia will have nothing to lose," wrote Mosha Pijade in the newspaper Borba, organ of Premier Marshal Tito's government.

Will Not Complain
Foreign Minister Edward Kardelj said Saturday this nation has no plans to complain to the U. N. about Russian propaganda warfare against Tito's regime, explaining, "we see no necessity for doing so."

Kardelj will head the strongest delegation Yugoslavia has ever sent to the U. N. at the assembly meeting opening in New York Sept. 20.

Pijade's challenge to Russia was pegged to a denunciation of a statement in the Moscow weekly New Times that Yugoslavia is plotting, with American and British backing, to absorb communist Albania. The New Times article, published last Wednesday, said both Yugoslav and Greek forces are violating Albania's borders. It urged U. N. action to protect Albania.

Accusations 'Ridiculous'
Pijade, a vice-president and politico member, wrote that the accusations are "ridiculous and slanderous." He said the charge that Yugoslavia has sold out the cause of the Greek communist rebels amounts to nothing more than a plain lie. The Cominform (communist information bureau) propaganda, he went on, "poisons the European atmosphere."

**After 5 Execution
Stays, Youth Will
Die Next Thursday**

Joliet, Ill., Sept. 13—(AP)—Herman Weber, 24, who is waiting to keep a date with death at midnight Thursday, is taking the dress of life calmly.

Five times, his execution was postponed, while courts and governors examined his appeals and pleas for clemency. It doesn't look as though there will be a sixth stay.

It was the murder of Flavel Dean, 20-year-old Bradley university student Dec. 1, 1947, for which Weber was sentenced to death.

Fueger failed to keep a date with a girl that night. Later his abandoned car was found, and in its glove compartment was a motorcycle's leather helmet bearing the name of Norma Weber, wife of the condemned man.

Weber was arrested by FBI agents at Houston, Tex., Dec. 11, and four days later, he directed authorities to Fueger's body in an Illinois river slough near Lewistown.

Weber told conflicting accounts of how he had attempted to hijack the student's car. He involved two other men in the shooting, including a "John Crowley" who was never found and has been termed fictitious by Peoria police.

**Red Ruffing Named
In Divorce Suit
Of Band Leader**

Duluth, Minn., Sept. 13—(AP)—A divorce suit, naming Red Ruffing, former New York Yankees pitcher, as a key figure, has been filed in district court by Robert Park, 32, former New York orchestra leader, against his pretty, blonde, heiress wife. The suit was disclosed today.

Mrs. Park, also 32, is the former Jane Alworth, granddaughter of Marshall H. Alworth of Duluth, who accumulated a fortune from his iron mine holdings. He died in 1942, leaving an estate of more than \$6,000,000.

Park asks "substantial" alimony, custody of their 16 month old adopted son, William, and possession of all their joint personal property, including their home.

The complaint, filed August 12, charges Mrs. Park first met Ruffing in 1948 while he was in nearby Superior, Wis., scouting the Superior baseball team of the Northern league.

It says Park found Ruffing and Mrs. Park together in the Park home after they had returned from a party on an Alworth yacht in Lake Superior.

**Distillery Blast
Kills 2, Causes
\$500,000 Damage**

Peoria, Ill., Sept. 13—(AP)—An explosion blew off the roof of a six-story distillery today, killed two men and caused \$500,000 worth of damage.

The blast broke every window in a still operated by Hiram Walker and Sons, Inc., it rocked nearby buildings and showered glass and debris over several blocks.

Two employees, Louis Schrader, 33, of Peoria, and Oliver Thomas, 32, of Washington, Ill., staggered from the building with their clothing torn from their scalded bodies. Both died several hours later.

Nine other men, some of them at work on the top floor, fled the building to safety.

Force of the explosion was felt several miles from the plant. The blast smashed the glass roof of the fermenter building.

Ten fire companies and 50 firefighters were called to the scene.

Steel Agrees To Meet CIO

Mystery Of Bogus \$10 Bills Solved In Crap Game Raid

Pittsburgh, Sept. 13—(AP)—Big steel agreed today to resume bargaining with the CIO steelworkers without committing itself on the presidential board's formula for peace in America's basic industry.

The giant United States Steel Corporation joined Jones and Laughlin and Republic in consenting to negotiating anew. U. S. Steel is the industry's bellwether. Its action usually means the others will fall in line.

Asked if U. S. Steel's step meant acceptance of the presidential board recommendations, a spokesman replied:

"I wouldn't think so."

Truman Lauds Situation
Big Steel's move came several hours after President Truman applauded developments in the steel situation. The strike truce expiring at midnight had been extended 11 days until Sept. 25 at Mr. Truman's request and U. S. Steel's production had returned to normal.

Approving the truce extension, the steelworkers also quit their fight for a fourth round pay boost and accepted the presidential board's offer of a 10-cent hourly package covering only company paid insurance and pensions. USW wanted 12 1/2 cents added to the \$1.65 hourly wage of the industry.

Twenty-four hours later, President Benjamin F. Fairless of U. S. Steel sent this telegram to CIO and steelworker chief Philip Murray:

"Referring to last paragraph of your telegram of yesterday to President Truman as published in today's newspapers, representatives of U. S. Steel are ready to resume collective bargaining conferences with representatives of your union at such times and place as may be mutually agreed upon for the purpose of attempting to arrive at some mutually satisfactory understanding."

"We will communicate with you about the time and place of the next meeting."

Murray had advised Mr. Truman of his union's decision to drop demands for increased wages "with regret" and to accept the fact finders recommendations. The last sentence of Murray's message called for immediate resumption of bargaining conferences aimed at "attempting to conclude mutually satisfactory agreements prior to 12:01 A.M. September 25."

As to prospects brightened for a happy solution, the White House said:

"The President is naturally highly gratified. He is very much pleased with the way things have developed up to now."

Republic was the first to reply after the union made known its stand. It favored the principle of social insurance and pensions for employees but felt that both the company and workers should contribute.

J. and L. then came in with an announcement it is prepared to undertake at once a joint study of pensions with the steelworkers "in anticipation of bargaining on this subject beginning March 1 next."

**2 Illinois Veteran
Heads Ask Members
To Ignore Robeson**

Chicago, Sept. 13—(AP)—Leaders of two large Illinois war veterans groups said today they are urging their members to stay away from appearances of Paul Robeson, negro baritone, in Chicago, Sept. 24-27.

Robeson's public appearances have been scheduled by the Chicago unit of the Civil Rights Congress. The congress has been listed by the attorney general as a subversive group.

Some veterans demonstrated against Robeson, and rioting broke out when he appeared recently at Peoria, Ill.

Merle Schladt, Princeton, Illinois, commander of the American Legion, said: "We will ignore him completely. We want nothing to do with him. The Legion wants no demonstrations."

David H. Caplow, Chicago, commander of the Cook county council of the Veterans of Foreign Wars, said some VFW posts in Chicago have passed resolutions against Robeson and his political views, but "our instructions to all members are to stay away and ignore him."

POLIO PATIENT
Decatur, Ill., Sept. 13—(AP)—Dolores Elaine Landers, 10, daughter of Mr. and Mrs. William Landers, near Beecher City, Ill., was reported today as a polio patient at Decatur City public hospital.

**East Germans Mutter Russ
Rule Is Just Like Hitler's**

Leipzig, Germany, Sept. 13—(AP)—Adolf Hitler would like the east zone of Germany today.

Lohrre said: Just as tough, just as harsh—and just as relentless as it was at Hitler's worst.

Concentration camps? The Russians don't have so many, but they are working toward it. There are huge camps at Bautzen, Buchenwald and elsewhere.

Fear? It day over all of Germany like a thick fog during the Nazi era. It is the same in the east zone today, with "Siberia" often substituted for Buchenwald.

The Nazis used to tell the people that they were building a better Germany and that it was every one's duty to help.

The Russians say the same thing, but they add the tag line that the Soviet union is east Germany's big brother, friend, counselor and guide.

A visitor to the east is made dizzy by propaganda flags, placards, signs and catchwords.

One big theme is "Russia and Germany hand in hand" toward the future.

FREE-SPENDING SAM

(From The Clinton, Iowa Herald)
In 1928, at the peak of the turbulent twenties, the federal, state and local tax pie was a mere \$9,349,000,000. Uncle Sam's slice was a modest 34 per cent. The states took 16 per cent and local government got the balance—50 per cent.

Ten years later, when the pie had grown to \$13,088,000,000, the old gentleman with the star-spangled waist and striped trousers was taking a bite of 41 per cent, while state and local governments were getting 24 and 35 per cent, respectively.

Of last year's record peacetime tax pie of nearly \$60,000,000,000, Uncle Sam took a gargantuan slice of 75 per cent. The state and local portions had dwindled to a meager 13 per cent each. As a result of Uncle's growing appetite, the sources of revenue still open to state and local taxing bodies are so few that to tap them would set up a chain of reaction so potentially violent that almost no one wants to talk about it for the record.

The biggest single factor contributing to this unwholesome situation is the naive belief of many millions of otherwise hard-headed Americans that federal money is free money from an inexhaustible purse.

America Is Showing Signs Of Growing Up

BY HAL BOYLE

New York—(P)—There are definite signs that America is growing up. It is settling into a post-war pattern of stability and responsibility that contrasts strongly to the chaotic years after the first world war.

Maybe it is too soon to start pinning good conduct medals on ourselves. But it does begin to look like this country, as a nation, and we, as a people are acting more like adults than at any time in our history.

There are all sorts of signposts to show it. The frontier in the United States used to be a frontier of wide land and deep wilderness. That has been tamed. The new frontiers today are in science and better human relationships between man and man, class and class, nation and nation.

They Want a Nest Egg
The people are developing and educating themselves as they develop the resources and productivity of their country.

Two world wars and a long depression within a single generation have helped turn Americans from gamblers into investors. Folks aren't so anxious to toss their bankroll away in a single splurge. They want a nest egg in the bank.

They are thinking more and more of life as something to be lived thoroughly and enjoyed long, rather than as something to burn up fast in a bright brief bonfire. And more people are living longer and learning to use leisure more wisely.

Making a big dollar is getting less important than living a full life. Money hasn't lost its attraction, of course, but fewer people are willing to put their whole effort into being able to buy and pay for a coronary thrombosis.

Workers Prefer Security
A big sign of the change in American thought came this week on the labor front. It was the decision of the steelworkers' union to try for a \$100 a month pension and other social gains rather than a fourth round wage increase. This is only one of many indications that, as the working population grows older, it prefers security to the quick buck.

There is still a reminiscent note from the era of wonderful nonsense about our times. Swimmers are again playing the English Channel, and Joe DiMaggio drives a long home run. But the age of fable is actually dead, and it is doubtful if the mad bad 1930's or the disillusioned 1960's will attract us again. We are too old for the rumbly seat, and the college boys now have lost their taste for swallowing goldfish.

The machinery is spinning faster and faster, but people are taking more time off to ponder why they were put upon earth—and wondering if it isn't really possible to make it a nicer place.

The world—and America—may be putting on long pants, after an extended childhood.

Airport Expects To Enroll More Flight Trainees

The Jacksonville Airport south of the city is expected to take on new activity as the result of legislation which has been passed in Washington, providing a flight training for more ex-service men.
Fred Wharton, manager of the local airport, said Tuesday that the U. S. senate and house have passed the Thomas amendment which was attached as a rider to the Veterans' Administration appropriation bill. "This bill provides flight training for ex-service men at any state-accredited and C. A. A. approved flight school," Mr. Wharton stated. "The building of new airfields and the enrollment of thousands of GIs in flight training courses will open and create many new jobs in aviation and kindred industries."

One year ago the Jacksonville Airport had an enrollment of 60 veterans flying on commercial pilots' courses. At present all but 15 students have completed their courses. The Jacksonville Airport maintains a fleet of nine airplanes for training and charter service.
The local school was first approved as a flight training center by the Civil Aeronautics Commission in 1940 when it was among the first to conduct (CPT) civilian pilot training. Later it switched to war training service for the government with 60 students enrolled.

Blaze Destroys Five-Room House Near Manchester

Manchester—A five-room one story frame house burned to the ground and all of its contents were entirely destroyed in a fire which blazed fiercely during a rain storm Monday night.

The house, located 11 miles west of Manchester, was owned by Ernest Cooper and was occupied by Mr. and Mrs. Charles McKean.

The McKean were in Manchester when the blaze started and were unable to get to their residence in time to save any of their property.

The fire, of undetermined origin, was noticed by a neighbor about 9 o'clock. The blaze had made such headway that no attempt to fight it was made.

No estimate has been made of the damage. The house was covered by insurance.

Believe 2 Fugitives Stole Hillview Truck

Carrollton—The two escaped prisoners still at large after making a break from the Greene county jail at Carrollton Saturday night, are believed to have stolen a truck near Hillview in their efforts to shake off officials who have launched an intensive manhunt throughout the area.

The two, Ernest Snyder and Dudley Watson, are believed to have abandoned the truck a short distance from the place it was stolen and set out on foot to seek refuge in the woods.

The truck, belonging to Glenn Seely, was found at the Coates school, between Hillview and White Hall.

The third escapee, Arthur Kessinger, was apprehended Monday night about 6 o'clock as he attempted to

hitch a ride with a trucker.

Kessinger, a federal parolee from Carrollton who was being held on charges of burglary and larceny, is now in jail at White Hall. It is expected that he will be removed to Carrollton sometime today.

Meanwhile, the search for the other two fugitives continues, with the hunt being waged by plane, car and on foot. Bloodhounds were used in the chase Tuesday.

Snyder and Watson were awaiting extradition by Denver police on charges of burglary and larceny. They are also wanted by the F.B.I. for violation of the federal auto theft law.

Parisian Designers Show Fall Styles Inspired By Items Like Chicken Wire

By ROSETTE HARGROVE

Paris (NEA)—The Orient, the 1920 flapper, flying kites, lassos and chicken wire—the only thing they have in common is that they all show up as influence on Paris' new fashions.

The first showings by Paris designers of their new fall collections attracted fashion students, eager to see which way the New Look was going. But even the designers differed over current and future trends.

Pierre Balmain emphasized the Oriental motif. It showed up in his mandarin-styled coats, mid-calf length lounging pajamas, and in the tufting on many skirts and jackets. Hats, too, reflected the Chinese, with the straight-on angle at which they're worn. Colors drew their names from the Orient—Lantern Yellow, Lacquer Red, Lotus Pink, Son-of-Heaven Violet, Swallow Nest Blue.

With hems ranging between 13 and 14 inches from the floor, some skirts were full, but most were slender and tubular. Many featured hip drapery. Sashes, styled like the geisha girl's obi, wrapped the waists of many dresses. Most creations featured natural or sloping shoulders.

Necklines, for daytime wear, were high, but the bodices clung closely to the figure. Balmain's suits emphasized wrist-length jackets with low lapels and a waistline that dipped in the back.

The emphasis on back interest was carried to its ultimate in evening gowns which well equip wearers to make dramatic exits. There were frills—some shaped like shells and cornucopias—that stand well out from the torso. Although the necklines started at the neck-in front, the backs were cut deeply.

Fabrics were luxurious, with many pure silk crepes, moires, brocades and a new gleaming reversible satin. There were also, of course, woolsens, corduroys and plain velvets.

Balmain's collection included many unusual touches, such as brown velvet pumps for town wear, spiky diamond-heeled evening shoes, a gold-lined umbrella and belts made out of chicken wire and tooled leather.

Another designer, Marcel Rochas, concentrated his showing around a looped front hemline, which was featured for all except suit skirts. Rochas, otherwise, remained faithful to the ultra-feminine silhouette—small waist, rounded hips, and stressed bosom line—and a 13-inch hemline.

Borrowing liberally from the 1920 flapper era, some of his topcoats were unfitted and had bolster collars extending below the normal

waistline. On several of his cocktail dresses, he featured the 1920-style fringe. One gown had a super-long fringe from an overskirt which draped a chemise dress of black satin.

Believing that the average woman has little opportunity to attend a very formal occasion, Rochas went in for short evening dresses with looped-up hems for general wear.

His very formal gowns were daring. One was a black satin model with the skirt cascading into a train at the back. The low bodice front was trimmed with an enormous black bird of Paradise, its wide-spread wings reaching to the shoulders. The beak was somewhere below the waistline.

Rochas kept black subdued, preferring such shades as Mustache Brown, Wine Red and Dragon-Fly and Bluebottle Blues.

Designer Madeleine Vramant launched the bias-cut "slip-dress," a modern version of the chemise frock. She calls it a "second skin"

which "acquires natural draped effects by the movements of the body." Because of the bias cut, it rounds the shoulders, shows an undefined break at the waistline and stresses slim hips.

Her creations favored black, followed by amethyst, green, red and yellow. For trimming, she used passementerie in the form of tassels, motifs, braids and fringe.

Jean Desses showed the shortest skirts, with hemline rising as high as 14 inches from the floor. He emphasized a slim silhouette. Turning his back on black he preferred somber shades of eggplant, green, blue and brown, especially for daytime wear.

Desses showed two completely new skirt treatments, revolutionary but not easy to wear. The "lasso" skirt had the fulness hitched up off-side, back or front. The "flying kite" skirt had the fabric worked like pleated and re-pleated paper. The designer calls this treatment the triumph of asymmetry and he carried it through his bodices, which stressed the bosom line.

No More Moths, But--- Not Much Carpet Left Either

LIFE CAN BE RUG-GED for a carpet. This one, in the home of the president of Ohio State University, was a guinea pig in a demoting test. The result is obvious.

Columbus, O.—(NEA)—It seems likely that somebody in Ohio State University's entomology department is going to get called on President Howard L. Bevis' carpet—the handsome livingroom carpet with the big hole in the middle.

While OSU's chief executive and his wife were away on vacation, the entomologists—they study insects—performed their annual chore in the Bevis' impressive official residence.

"Each year," says Dr. Bevis, "it has been the custom for the entomology department to bring chemicals here in crocks to demoth the house."

This year, the scientists tried out a new chemical, using the president's home as a homey guinea pig.

Result of the experiment: the chemical ate holes in the living room

carpeting as well as rugs in other rooms, including some upstairs. It ate a hole in the rug on the sun-porch and damaged woodwork and tiling in a bathroom.

Dr. Bevis and his horrified wife, who returned from their vacation to discover the house had been demothed, summoned rug experts. All they could do was trim the ragged edges of the holes.

The head of the department of zoology and entomology, Prof. David F. Miller, didn't know what chemical had been used. But he would look into it.

Meanwhile, the state of Ohio, which furnished the residence to the president of the university, is out a few pieces of expensive carpeting.

And the moths? They seem to be gone, too so the experiment may have been a success, after all.

SHEIK OBJECTED, BUT NOW ARABS TAKE BATHS

RUB-A-DUB-DUB, three Arab children in Mrs. Ida Hegnauer's tub means a triumph for her Swiss ideas of cleanliness over age-old Bedouin belief that bathing is a semi-religious function.

By CORRIENNE HARDESTY
NEA Special Correspondent

Gaza, Palestine—(NEA)—Mrs. Ida Hegnauer's Swiss passion for cleanliness almost touched off an international incident among Arab refugees in Gaza, but at last, in a manner of speaking, it's all come out in the wash.

Mrs. Hegnauer, who manages the food distribution center for 80,000 homeless in this area, thought it would be a good idea if the refugee women and children could stop off to take a bath or do some laundry during the long waits for their food rations.

So she set about getting a laundry, showers and baby baths built next to the unused mosque which houses the food center.

When it was finished, she showed it off to the refugee women by gently bathing a little Bedouin girl in one of the tubs, and then taking a shower herself.

The youngsters went away scrubbed and happy. But the next day, the sheik and other dignitaries of the Bedouin tribe called on Mrs. Hegnauer. What, they wanted to know, was the reason for her enormous crime? Why had she outraged a time-honored custom among the Bedouins, who keep themselves clean not consider bathing a semi-religious function?

Mrs. Hegnauer had no intention.

of giving up her idea without an argument. As one of a team of 45 volunteers from 11 nations who work for the American Friends Service Committee to administer relief in southern Palestine, she had fought hard to build this "plus" item, for which no funds are available.

She suggested that the sheik let the women of the tribe decide whether or any crime had been committed. That meant she had to demonstrate the showers and tubs all over again for the women and children.

First thing she knew, so many women and children—including the Bedouins—wanted to use the bathhouse that Mrs. Hegnauer had to ration baths just the way she rations food.

Now 20 women can use it at one time and stay there, scrubbing their clothes, their youngsters and themselves, for three hours.

No one can use the bathhouse more than once in 10 days, but all day long, six days a week, it's a scene of amiable uproar. A jolly Sudanese woman manages matters inside and serves as wet nurse for hungry infants whose mothers are too busy. Outside an elderly refugee man runs the pump and a water heater while he nods and smiles at the feminine chatter on the other side of the wall.

And the Bedouin sheik no longer has Swiss ideas of bathing as a criminal.

GAYNEL had to call in Doctor Carile again for her mother. Her nerves were in such a state, after the scene Fritz had made that they rose to the point of hysteria and she suffered what the doctor described, perhaps for want of a better term, a slight heart attack.

Emily was pleased. She now had a heart to consider, as well as nerves.

She would scarcely allow Gaynel out of her sight, so that she was obliged to get a few days leave of absence from the office.

She followed her with big mournful eyes, faint reproachful sighs, and her most patient and sweetest smile when Gaynel was in the room. She did not attempt to extract any promise from her daughter in regard to her leaving her at such a time, but it was understood, in the very atmosphere of the big house that any such procedure would without doubt be the end of Emily.

Gaynel was allowed one brief, tense interview with Fritz. On the third evening of the five days, it took place in the little writing room.

"I've reserved a drawing room on the Santa Fe," Fritz said. "Day after tomorrow. Will you have that bag packed?" His tone was light, but his blue eyes had never been more serious.

Gaynel said, "You know I can't." "I don't know anything of the sort. You could if you wanted. We've still time enough."

"Two days." "Two minutes should be enough to make up your mind. If, as I said before, you wanted to make it up. See here, my sweet," Fritz adopted his masterful air. "You can't really mean you're going to let this stop you?"

"You said some things that were almost unforgivable, Fritz."

"The truth always stings." "But it wasn't the whole truth. I'll admit it in parts. Besides, they are my family. I love them."

THEY both were standing, as though there was not time to sit down.

"But someone had to say those things. You can't really mean you'd let me go without you, that you're not going with me? Think of the Christmas we planned—sunshine and roses."

She said, "There'll be other Christmases." And wondered why he could not see how it twisted her heart to say it. "You know I can't go—this time, Fritz."

"Because your mother is ill. I suppose," Fritz said, impatiently. "But you can't honestly tell me it's anything serious, Gaynel."

"The doctor said she must have rest and quiet. If she was upset again, it might prove serious."

"She's just stalling. She thinks if she still can persuade you to marry your gilded boy friend, and his 20 millions."

Gaynel said, "I can't let you talk that way, Fritz."

Out of that pride and hurt he said, "Maybe you're stalling for time, too. Maybe it's hard for you to give up the idea of those 20 millions."

Her face went white. "You have no right to talk that way to me. To say such things."

"I seem to have no rights at all." "You're being terribly unfair."

"All's fair in love . . . You've surely heard that one."

"You're being unreasonable."

"As I said before," Fritz took up his place in front of her once more; but he folded his arms in back of him, as though determined to keep them there. "This isn't getting us anywhere. And as you have reminded me, several times, there isn't much time; I'm keeping you."

The Privilege of Citizenship

In this great country requires the acceptance of certain obligations—obligations that every real American recognizes and meets, or tries to meet.

ONLY THROUGH LIFE INSURANCE

can the average American discharge the obligations that are inherently his as a citizen of this great country.

If he dies without having met, or having tried to meet these obligations, and leaves the obligation of his creation to the state to provide for, he is consciously or unconsciously helping to weaken, to destroy the principles of government that are his sacred and sworn duty to uphold.

Only one word fits it — Wonderful!

You know how it usually is—slow and steady is the rule in automotive progress.

But every now and then it happens. Along comes a car that's new all over—like this one—and headlines sing the news.

Take the styling of it—fresh and smart and really exciting from its non-locking bumper-guard grilles to the jet-plane look of its fenders.

Take the outward size of it—handy in traffic, easy to garage, actually more room and a sweeter ride in fewer over-all inches.

Step inside—and stretch yourself in the biggest interiors ever found in a Buick Special, with a full twelve inches added to rear-seat hiproom.

Try the power of big 110 or 120 hp high-compression Fireball engines—sample the restful levelness of a ride that sets the standard for the industry.

Check controls—and note really big news: The luxury of Dynaflo Drive*—newest, simplest and smoothest of all modern transmissions—is optional equipment, available now at the lowest price level yet!

Finally, look at the price tag. Measure its figures against others—and see if any car, even in the lowest-price field, gives you so much of what you want for each dollar you invest.

Tops in style, tops in room, tops in lift and life and traveling ease, a trip to your Buick dealer will show you this is wonderful in value too!

MEMORY LANE

FASCINATORS

Remember those knitted fascinators which women folded in a triangle and wore on their heads? Some of them were of quite fancy design and made a very becoming head covering. In those days every woman had a fascinator to "throw on" when she went to the neighbors or down to the corner store. Remember?

Grandpa Kept The Crown Jewels; He Just Keeps Sixpence A Shine

INFORMATION WITH A SHINE: Vivian de Gurr St. George, self-styled black sheep, gives directions to U. S. Sailor Samuel Morris of Birmingham, Ala., at his London shoe shine stand.

By JULIUS HUMI
NEA Staff Correspondent

London—(NEA)—The grandson of the ex-keeper of the Crown jewels in the Tower of London laid down his brushes and wiped the shoe-polish off his hands.

"This is the life I have always dreamed about," he said, pocketing the sixpence coin (20 cents) he had collected from his last customer. "I have never had more friends, and what's more I don't have a boss."

At 55, Vivian de Gurr St. George, descendant of a distinguished British military family, renewed his license last week and returned to his shoe shine pitch near Marble Arch, in the heart of London. There for the past five years he has done a regular and lucrative business, cleaning the shoes of such eminent patrons as George Winant, late U. S. Ambassador in Britain, and most of the staff of the U. S. French and South American embassies in London.

The Chinese Ambassador once presented him with a golden stick pin which St. George keeps stuck in his cap.

"It's supposed to fetch luck," he explains, "and though I am not superstitious I must say I have had nothing to complain about since I became a shoe shiner."

St. George is also an official interpreter and information guide.

Before Vivian de Gurr St. George settled down in his present vocation and became the most popular shoe shine "boy" in London, he led a roving life on sea and land. In one way or another he participated in almost every civil war, from the Mexican revolution (he still holds a regular commission in the Mexican army) to the Spanish civil war in which he served as a machine gun officer in the International brigade. During his long years in South America he met, and married, the daughter of an Argentine diplomat.

"I guess I have always been the black sheep of the family," St. George admits, "but I think, looking back, it was worth it. I have learned most there is to life, even if it was the hard way."

BEST-MADE PLANS OF TRAVEL AGENTS, ETC.

Chicago — (P) — Ricardo Nelson runs a travel agency. He has mapped tours for many vacationists. His interest in his work was more than professional. He had the urge to go places, too. Finally, with the summer rush over, Nelson planned a nice long motor trip for himself. He got everything ready with practiced ease. Then the night before the takeoff date the brick wall of his garage collapsed. His car—and his plans—were ruined.

Everett Dirksen To Headline Speakers At GOP Picnic Thursday

Former Congressman Everett Dirksen of Pekin, Ill., who is believed to be about ready to toss his hat into the 1950 race for U. S. senator, will speak Thursday afternoon at the Morgan County fair grounds under auspices of the Republican Central committee.

An outspoken critic of the "New Deal" and "Fair Deal," Dirksen is expected to sound the battle cry for the election next year. Many political observers believe Dirksen will plunge into the primary within a few days, and if successful, probably would meet U. S. Senator Scott Lucas, who is expected to be a candidate for reelection.

According to reports reaching local Republican officials Tuesday, Dirksen is expected to formally announce his candidacy at a rally to be held Sunday afternoon, Sept. 18, at the Exposition grounds in Peoria.

Mr. Dirksen, who served 16 years in Congress, is a native of Pekin, an attorney-at-law, and a World War I veteran. He has traveled abroad extensively to study foreign political, military and economic problems, and is one of the best informed figures on world and national issues.

For several months he has been touring Illinois to determine public sentiment and to confer with Republican leaders, with a result that he is now considered a sure candidate for the Republican nomination for U. S. senator next year.

Day and Night Program

Morgan county Republicans are completing plans for a public picnic Thursday at the fair grounds, beginning at 2 p. m. Afternoon and evening programs have been scheduled.

Dirksen will deliver his address at 3 p. m., according to A. E. Williamson, county Republican chairman, who is in charge of arrangements for the picnic.

At 4 p. m. a horse show will be held in front of the grand stand, open to entries from this county. Trophies and prizes will be given for

THE DOCTOR ANSWERS

QUESTION: Several people I know use five drops of oil of wintergreen on a spoonful of sugar twice a day for arthritis and claim it helps them. What do you think?

ANSWER: Oil of wintergreen is related to aspirin and both are helpful in some forms of rheumatic fever. It may make the pain of arthritis slightly less but I doubt that it would help much in any other way.

Czechs Curb Runaway Pilots

Parague—(P)—The Czechs, who have had some trouble with runaway pilots, are devising ways of foiling such tricks, observation at some airports discloses.

Where once planes were parked abreast a circular parking system now is used which provides for the interlocking of the planes' wings. That means if a pilot desired to move one plane he would have to move virtually all of them and this couldn't be done quickly or without detection.

Another precaution is to ration gas, except on commercial or otherwise authorized flights, in such amounts that a plane couldn't fly beyond the nation's borders.

OCCUPATION SPENDING IN JAPAN STUDIED

Tokyo—(P)—Occupation personnel, business men and other foreigners in Japan are spending the equivalent of \$4,000,000 monthly in foreign money, an informed occupation source reports.

All of these dollars or their equivalents in foreign currencies go to the Japanese government. Most of the money is received in exchange for yen purchased either from army finance offices or from the Japanese government's foreign trade bureaus.

The information recently was passed along confidentially to a group of Japanese editors to show that Japan is not paying the entire cost of the occupation.

Brittle Bones Often Traced To Various Diseases

By Edwin P. Jordan, M. D.
Written For NEA Service

Some people are more likely to break their bones than others. Of course, this is sometimes caused by clumsiness or to a rather vague condition which is called "accident proneness." In other cases, however, there is something in the bones themselves which make them more

easily breakable.

Any disease which weakens the bone structure will lead to easier breaking. This includes various kinds of tumors of the bone and such disease as osteomyelitis, which is an infection of the bony tissue. Many of these diseases of bone can be treated very satisfactorily by modern methods of surgery.

In addition to strictly bone diseases of such kinds, there are some rather rare conditions which attack the bone and which may make them brittle and easy to break. One of these is known as osteitis fibrosa cystica. This condition can be either localized to a single bone or it can involve a number of different ones.

Weakens The Bone

It causes the calcium which makes bone hard to be withdrawn and the development of a cyst or a sac-like area or areas. Wherever such sac-like areas are located, the bone is naturally less strong and resistant to strain than normal bone would be.

There are a few of the conditions which are sometimes called brittle bones: anyone who sustains a broken bone from what appears to be only a minor injury should have a thorough examination in order to make sure that some general disease of the bones is not responsible. Many of these can be cured but in a few cases there is nothing which can be done to lessen the likelihood of new bone fractures except great

LARVA USED AS SHUTTLE

The ant, oecophylla smaragdina, like a nest made of silk, but can spin only while in the larval stage. So the adult ant does its weaving by using a larva as a shuttle, moving it back and forth to form the fabric walls of the nest.

Mr. and Mrs. Joseph Frank are parents of a son born last week. The infant has been named David Alan.

Mr. and Mrs. Homer Baptist spent the week end in Chicago.

Roland Long, and Bob Marr left Tuesday for Macomb, where they will enter Western State college.

Mrs. Bird Pollock of Dixon visited here with her brother and sister-in-law, Mr. and Mrs. E. C. Coulter, and Dr. Harriett Taylor.

SAAR WANTS NATIONAL ANTHEM

Saarbrücken, Germany — (P) — Several months ago the Ministry of Culture of the Saar, now economically merged with France, invited proposals for a national anthem. Now the ministry found that none of the 537 drafts submitted was good. It urgently requested the poet, Johannes Kirchweg, to write one.

GODS PROVE UNFAVORABLE

Langkok — (P) — Six men went to the Abbot of Wat Samplun Monastery to make an offering to a spirit for protection of the Gods during their planned robbery.

The site of the intended robbery was to be the monastery itself.

Something apparently had gone wrong with their religious ceremony — police surrounded the six worshippers and arrested them. Seized also were two hand grenades, three pistols and other weapons.

WHEAT IS STRONG; CORN AND SOYBEANS FAIL TO ADVANCE

Chicago, Sept. 13—(P)—Wheat was independently strong at the Board of Trade today. Reports that the government had increased its buying price two to three cents over yesterday's basis for grain f.o.b. Philadelphia led to buying.

Corn on the other hand, couldn't find much reason for advancing. Soybeans declined as the result of scattered liquidation. When commission houses started selling support was poor.

Receipts were: wheat 15 cars, corn 102, oats 20, rye 2, barley 37, soybeans 21.

At the finish wheat was 1 to 2¢ higher than yesterday's close, September \$2.08 1/2. Corn was 1/2¢ higher to 1 cent lower, September \$1.27 1/2. Oats were 1/2¢ higher to 1¢ lower, September 69¢. Rye was 1 to 1 1/2¢ lower, September \$1.44 1/2. Soybeans were 1/2¢ to 1¢ lower, November \$2.27-28 1/2. Lard was unchanged to 10 cents a hundredweight lower, September \$12.10.

Sherrod M. Smith, OneTime Brooklyn Mound Ace, Dies

Reidsville, Ga., Sept. 13—(P)—Sherrod M. Smith, a mainstay of the Brooklyn Mound Corps since 1915, died last night. He was 58.

The big left-hander pitched for the Dodgers from 1915 to 1922, including two world series. In 1922 he joined Cleveland where he remained through 1925.

Smith appeared in 331 games, winning 103 and losing 104, during his 11 years in the majors.

When he retired from baseball, Smith returned to Georgia and accepted a job at Tattall state prison here.

He is survived by the widow, one son, Sherrod A. Smith, Jr., and a daughter. Funeral plans have not been announced.

Redskins Place Steve Bagarus On Waiver List

Washington, Sept. 13—(P)—Swivel-hipped Steve Bagarus, one of the more colorful stars in the history of pro football, is through as a Washington Redskin.

President George Marshall and Coach Billik Welch have come to the conclusion that the former Notre Dame halfback is washed up. They placed him on the waiver list yesterday.

Now, any team in the National Football League that thinks Steve has still got some football left in him can have him for \$100.

It's a sad turn for "Bugsy" who, now 30 years old, was a famed Wildcat of the Wisp three years ago and one of Slinging Sammy Baugh's favorite targets.

In 1945, he and Baugh nearly led the Redskins to an eastern division title that year by themselves.

Trojans Odds-On Favorites To Win PCC Grid Honors

San Francisco, Sept. 13—(P)—The University of Southern California Trojans are odds-on favorites in this section to win the 1949 Pacific Coast conference football championship. This means, too, they are the choice to go to the Rose Bowl, Jan. 2, 1950.

Members of the Northern California Football Writers Association and guest coaches put Coach Jeff Cravath and his many Trojans on the spot in the opening fall meeting of the organization.

The compliment was distinctly one-sided. Southern California received 17 first place votes and five for second place among the 22 ballots cast.

SORROWFUL'S SORROWFUL—Sorrowful, a 5-month-old monkey at Chicago's Lincoln Park Zoo, got into some monkey-shines and had to pay the penalty. It all happened when Sorrowful escaped the watchful eye of his mother, climbed to the top of his cage, and took a dive to the ground below. When he came up, he had two broken legs and a broken arm. Getting an X-ray exam from district park nurse Agnes McGuire, Sorrowful's now a sadder and wiser monkey.

Florican May Set New Money Mark For Trotters

Reading, Pa., Sept. 13—(P)—Florican, two-year-old trotter of the Arden homestead stables, stands a good chance of setting a new money winning mark for horses of his age and sex.

Florican captured his third straight grand circuit stake yesterday by winning the \$11,141 Reading Fair Futurity for two-year-old trotters at the Reading Fair.

The victory, bringing with it first money of \$5,421, raised Florican's total to about \$45,000—only \$4,000 short of the all-time record for two-year-old trotters.

Stuart Hanover finished second and Honor Bright third in the sum-maries as Florican won in straight heats of 2:13 and 2:08 4/5.

The three-heat 13 class pace was won by W. H. Cane's Mighty Med-lum in consecutive dashes. Myers and Sheppard's Burma Hanover grabbed the three-heat 16 class trot also in straight heats.

Six-Man Gridders Go Into Action Thursday; Routt Team Is Idle

The new 2-C six-man football conference gets rolling Thursday night when four of the five entries clash in arc-lighted games.

Routt, the local and fifth member, is the only outfit that will not go into action Thursday. The Rockets are idle until a week from Thursday when they clash with Arenzville in their home debut. The odd number of clubs in the loop necessitates the inactivity of one team each week.

Games slated for this Thursday night will see Roy Sarff's Chandlerville Comets tugging with Arenzville on Verd's home turf while Howard Savole's Mercedosia Indians make their football debut as guests of Franklin on the Waverly field. Joe Treat is the Franklin coach.

The sport is completely new to three of the five schools. Routt of Jacksonville ceased grid activity five years ago, and Franklin had its last eleven-man machine over 25 years hence. Mercedosia, Arenzville

War Widow Tells Of Youth Killing Man For Mother

Dover, Del., Sept. 13.—(P)—A plump 26-year-old war widow testified today that young Herbert Brennan shot and killed an elderly Virginia handy man, then told how he related without emotion:

"I finished the old man—I shot half his face off."

The testimony of Mrs. Dolly Dean, a boarder at the Brennan farm near Dover when 67-year-old Wade N. Woodbridge of Bedford, Va., was slain last Oct. 10, came on the second day of the lonely hearts trial.

Robert is charged with first degree murder as the actual killer. His mother, Mrs. Niex Brennan, 45, is charged as an accomplice.

Speaking in a low voice, Mrs. Dean told of the shooting by the son and of the division among the family of the clothing and other possessions of the man who had met Mrs. Brennan through lonely hearts correspondence and had come to the farm to marry her.

Under Delaware law, an accomplice is liable to the same punishment as the principal, but no greater. The punishment for first degree murder is either death by hanging or life imprisonment.

County Jail Is Home For Couple And 3 Children

Newport, Ind., Sept. 13.—(P)—The Vermillion county jail was home tonight for a young couple and three children.

They are Mr. and Mrs. Harold Bickett, each 24, and Mrs. Bickett's three children by a previous marriage—Patsy, 4, Jeanie Ray, 3, and Tommy, 2.

They came to Cayuga, where Bickett got a job in a canning factory, and moved into a two-room shack near that town. A Cayuga school bus driver, John Boswell, saw their plight and brought them to the county building.

Bickett said he wanted to go to Rockford, Ill., where he thought he could get work. The Vermillion county Red Cross offered to provide the family's transportation to that city or to Tomahawk, Wis., where Bickett said he met his wife.

Graziano Will Make Comeback In Garden Tonight

New York, Sept. 13.—(P)—They are putting on "the return of the outcast" tomorrow night at the polo grounds, and it promises to pack 'em in.

In the title role is 'Ol Rocky Graziano, whom the local fights fans adored before, some three years ago, he was delinquent in reporting a vague suggestion made to him that he throw a fight at the garden.

For that he was banished from New York state rings. Subsequently, on alien canvas, Rocky won the middleweight championship from Tony Zale and then lost it to the same rugged brawler.

And now the "Golden Boy" from the east side is ready for his big comeback. If the weather holds good, it is possible that he and Charley Fusari, a hard-punching welterweight from Irvington, N.J., will draw 35,000 fans and close to \$250,000 into the big ball park.

Fusari, at 24, has won 61 fights and lost only four. He gained the coveted outdoor engagement with Graziano by a sensational one-round knockout last May of Vince Foster, from Omaha, killed recently in an automobile crash.

Kiner Blasts Pair, Ties 2 League Marks

Pittsburgh, Sept. 13.—(P)—Ralph Kiner hit two home runs tonight and tied two major league records. They came in a game in which the Pittsburgh Pirates beat the Philadelphia Phillies 11-6.

One of the records was the most grand slam homers—bases loaded—in a season, four. The other was the most homers in consecutive trips to the plate, also four.

It was the third time he had hit four homers in four trips. He did it twice in 1947. Other players who have turned the trick are Jimmy Foss, Philadelphia Athletics, 1933, and Bill Nicholson, Chicago Cubs, 1944.

Pittsburgh played its 137th game tonight. In 1927, the major league season ended Sept. 30. The final games this year will be played Oct. 2. Cliff Chambers won his 10th victory behind the Pirates' 14-hit slugger.

"Baby It's Cold Outside!" We've just returned from the J. H. S. football field where we, and about 150 other gridders greeted watched

Coaches Kraushaar and Chapman conduct a cold, cold Crimson scrimmage session under the bulbs. If the weather continues in this sub-normal trend, we're going to petition the schools to waive football in favor of basketball.

Have you ordered your coal?

Although the weather might have been chilly, the Crimson huskies were anything but frigid as they worked mightily to get in shape for Glenn Smith's Pittsfield Saukees who bring a war party here Friday night. Johnny Walker uncorked a brilliant 60 yard touchdown sprint to high-light last night's activities. Other gains of note were registered by Halfbacks Bruce Samore and Jess Meado while lean Don Smith continued to rip the line with his blasting smashes from the full-back post.

Yestr things are looking up for the Crimson. We predict great things for the local gridders and just to prove our faith in them, we predict—Wait, we'll have to sleep on this one more night.

Al Miller saw some of his Blueboy footballers carried off the practice field yesterday afternoon. We'd recommend the Hilltop as a likely spot for someone to park a meat-wagon while the IC'ers are scrimmaging. Toughest blow came when Bob Scheller, a nifty passing quarterback, was dressing roomed with a bruised side. He may have two cracked ribs.

Bright spot in the Blueboy scrimmage was the deceptive running of speedsters Raymond Watts and Ken Barnard. Barnd, a White Hall boy, joined the IC squad yesterday after returning from Arkansas State where he had been under the wing of Frosty England 'til a minor injury put him in the bad graces of the portly tutor.

Bill Gross, pile-driving Blueboy fullback, was married Sunday and departed on a honeymoon to Canada. He stated before leaving that he and the Mrs. would return for the Millikin game. Seldom do honeymoons end so abruptly. Bill will really know that the honeymoon is over when he smacks into that 200 pound per man Millikin line. Wow!

In the how time flies department—Coach Harry Combes has announced Illinois varsity basketball practice will begin Oct. 17. Get those gyms heated up.

The Illini's opener with Iowa State Sept. 24 will be the 122nd intercollegiate game in Memorial Stadium. Record of the Illini on their home turf is 74 victories, 43 defeats, 4 ties.

Red Munger Gives One Hit As Cards Win 1-0; Bums Keep Pace 10-6

St. Louis, Sept. 13.—(P)—Red Munger was in top shape as he bested Dave Koslo in a pitchers' duel tonight, giving the St. Louis Cardinals a 1 to 0 triumph over the New York Giants. Munger allowed but one hit. He also walked a man—facing 28 Giants altogether.

That one hit was a line single by Sid Gordon in the second inning. Munger then retired 16 straight batters until he walked Bobby Thomson in the eighth. Thomson was out in a doubleplay to save the big righthander from having to face another Giant.

How the lone run was scored was remarkable in itself as Stan Musial tried to hold back his bat but instead met the ball for a double in the first inning. Nippy Jones then singled, bringing Musial home.

The Cardinals hit Koslo nine times, including those first inning blows. Except for that inning the Redbirds couldn't get a man past second base, however. No Cardinals walked in the contest.

Munger struck out two men—including pinchhitter Bert Haas in the ninth. The fans watched tensely as Marty Marion retired Bill Rigney for the last out to make Munger the third major league hurler to get a one-hitter this season.

Red Sox Defeat Tigers 7 To 4
Boston, Sept. 13.—(P)—Boston's Red Sox propped their slim chances for an American league pennant by thumping the Detroit Tigers 7-4 today as the leading New York Yankees were rained out of a scheduled twin bill with the relaxed St. Louis Browns.

The victory, achieved before a crowd held to 10,229 because of cold, damp, threatening weather, inched the Sox within 24 games of the New Yorkers.

It also snapped a Detroit winning streak which had run through 10 games and dumped the Tigers back into fourth place.

The Sox also were the last to defeat the Tigers, Chuck Stobbs pitching a 7-4 decision against them in Detroit Aug. 31.

The Tigers hopped on Jack Kramer for three runs in the opening inning today and seemed headed for their 19th victory in their last 21 games.

Gumpert, who has lost 14, was staked to a lead in the second inning when George Metkovich singled, took third when Rocco Krsnich doubled and scored on Charley Kress' grounder. The Sox scored again in the third on Bill Higdon's single, a walk to Luke Appling and Metkovich's single.

Both Washington runs off Gumpert were unearned. The first came in the fourth inning when Krsnich threw wild after fielding Bob Ortiz's grounder. Ortiz went to second and came around on grounders by Eddie Robinson and Clyde Volmer.

Coroner's Jury Decides Mrs. Marie Bruening Died Of Poliomyelitis

Meredosia—A coroner's jury investigating the death of Mrs. Marie Bruening returned a verdict here last night finding that the 24 year old wife of Bernard Bruening and the sister-in-law of Marvin Bruening, arsenic victim, died of polio.

The inquest was held at the Schaefer Funeral Home. Six Meredosia residents who had been sworn in by Coroner Clarence H. Muehlhausen on Aug. 19, returned the verdict after they had studied findings of clinical and laboratory examinations of the vital parts of the young woman. An autopsy was performed upon her body soon after her death at Passavant hospital at 6:40 a.m., Aug. 18.

She and three other members of the Bruening family had become ill on May 22, presumably from something they ate or drank. Her brother-in-law, Marvin, was later admitted to Passavant hospital where he died July 1. Chemical analysis of vital organs disclosed his death was definitely due to arsenic.

Sore Throat, Fever
During the height of the summer's polio epidemic Mrs. Bruening appeared for medical attention, complaining of a sore throat, attendant difficulty in swallowing, and fever. She was given penicillin and permitted to return to her home. Late the next day she was admitted to Passavant hospital and death occurred the next morning.

Her husband experienced the same preliminary symptoms, but in a milder form. He was permitted to attend funeral services held for his wife in Bluffs on the following Sunday and then returned to the hospital, from which he was soon released.

Study Medical Report
Last night's jury was composed of Charles H. James, foreman, Gilbert Steinberg, Fred Heltbrink, C. M. Skinner, Dean Miller and G. D. Norbury. They reached the decision that Mrs. Bruening came to her death from "anterior poliomyelitis of the bulbar type" after studying the following report prepared by her

Plan Public Meeting On Classroom Needs

The Jacksonville Board of Education last night voted to call a public meeting at the high school on Tuesday, Oct. 4, to discuss the school housing problem caused by increased enrollment.

In its first meeting of the current school year, the board observed that "the present condition of the elementary schools and the probability of much greater increases in the future require that some action be taken."

In its review of the situation, the board noted that the condition here accompanies a national trend which has created a shortage of elementary teachers and classrooms throughout the country. It has been estimated that there will be an increase of 843,000 pupils in elementary schools this year.

In Jacksonville there are 89 more elementary pupils than at the beginning of school last year. Although there have been increases in all grades, the largest increase was in the first grade: 176 beginning students in 1948; 222 in 1949. A study of the birthrate trends in Jacksonville indicate the number of first graders may increase to 300 within the next three years.

New Berlin Elevator Burns To The Ground; Wabash Station Saved

New Berlin—The Hagen elevator located south of the Wabash passenger station was completely destroyed by fire last night. The 45 year old wooden structure had a capacity of 55,000 bushels and contained an estimated 10,000 bushels of corn, oats and soybeans when it burned to the ground within a short time after the blaze was discovered shortly after 10 p.m.

The fire was so far advanced that volunteer fire departments from New Berlin and Pleasant Plains and a truck sent by the Jacksonville fire department immediately turned their attention to the task of saving the Wabash station and two nearby residences.

Spurred by a high wind from the north, the blaze soon toppled down the walls of the 75 foot high structure.

The fire was discovered by Mrs. Tess Walters. She immediately notified John Mayberry, an employee of the elevator, who found that the flames had already engulfed the lower deck of the structure. Mr. Mayberry and the manager of the elevator, Franklin Rogers of 1065 S. Clay avenue, Jacksonville, had left there about 9:30 p.m. At that time there was a "small glow" in the co-burner located between the elevator and the office building, which was also destroyed by the conflagration.

Mr. Rogers said that the elevator and most of its contents were covered by insurance.

The elevator was owned by Wash Hagen of Pleasant Plains.

The blaze could be seen for miles and many travelers on U.S. Route 36 stopped to watch the destroying flames.

The local fire department sent out a truck manned by Assistant Chief Carl Litter, Driver Byron Campbell and Fireman Joe Sullivan.
